

The beautiful open kitchen is delineated by exposed beams around the perimeter and a stone tile floor. Sharing conversation with family or guests while preparing meals is natural.

The living area has a lovely brick fireplace, wood floors and ample natural light from the south east facing windows and doors.

Colored wall, white ceilings and white molding provide a simple elegant design.

The master suite features a plank wood floor, colored walls, white ceiling, white molding, a one piece designer vanity sink and counter top, and a walk-in shower with tile surround.

Both of the other two bedrooms are good sized and nicely lit by windows looking out over the front yard. Colored walls, white molding and wood plank floors again create a simple elegant ambiance.
