

The natural light filled living room, with high vaulted ceiling, greets you and your guests. A half-bath is off to the side enabling guests to remain in the formal public area.

Down the short hallway is the “great room” where your family can relax, or prepare and enjoy meals. The kitchen features stained wood cabinets, granite counter tops and modern black appliances.

A sliding glass door leads you from the great room out to the spacious patio, perfect for enjoying the outdoors.

Bedrooms are upstairs. The master suite features a high vaulted ceiling, wood floor, and vanity in an alcove with arched entrance. The shower over tub and toilet are in a room reached from the side of the alcove. Two closets provide ample space.

The other bedrooms also feature beautiful, easy to clean wood floors and vaulted ceilings. North & east facing windows provide plentiful natural light without the heat and glare from hot afternoon sun.
