

Indulge in a modern gourmet kitchen with like new stainless steel appliances, hardwood flooring and cabinetry & granite back splash. A breakfast bar is the perfect & elegant touch to complete this fabulous design.

Two master suites set this lovely home apart. The back master suite has large windows and a door leading out to the backyard. The front master suite has a large sitting room.

Bathrooms have beautiful stained wood vanities with stone tops and porcelain sinks.

The two additional bedrooms are located behind the front master suite and receive light from windows looking out over a small patio.

Adobe Creek flows in a cement channel behind the home preventing buildings being built near the backyard.
