

With soft natural light coming into the living area from three sides, a marble tiled fireplace, and views of the enclosed yards, the living area has a wonderful open yet private ambiance.

Two skylights provide additional natural light in the kitchen. Sleek recessed panel white cabinets, stainless steel appliances, and granite counter tops give the kitchen a modern contemporary look yet the antiqued plank floor maintains a warm inviting ambiance.

Glass paned doors leading out to a new deck from the master bedroom build on the feeling of open yet private space. The glass counter top on the stained wood vanity builds on the theme of a contemporary yet warm inviting home.

Mature open trees provide dappled shade, perfect for enjoying the outdoors.

All four bedrooms have wood floors. Two of them have glass doors leading out to their own decks.
