The combined living room + dining area has a charming gas burning fireplace and wood floors. A side patio is just outside the living room and extends down to the master bedroom. A raised, semi-enclosed deck outside the dining area provides great views of the canyon.

The master suite has a walk-in closet and a bathroom that was remodeled in May 2016. A third bedroom has an adjoining door with the master bedroom, which makes it ideal for an office/den, nursery, or as another bedroom. Also included is a new washer and dryer located in the hallway.

Located in Brisbane, it is ideal for commuters to downtown San Francisco or the peninsula.
