

611 Callippe Ct, Brisbane 94005

3BR/2BA | 1,663 sf | Built 1999 | Canyon Views

This lovely home will give you many years of enjoyment: large open living/dining area, partially walled deck, partially walled side patio, two parking places, and fantastic views.

Consistent with the canyon view, landscaping is semi-natural. Plentiful bright white trim adds an elegant touch to the natural colors. Located in a canyon, the home is in a warmer area than the often fog shrouded city of San Francisco, yet is only 20 minutes away.

The entire area is filled with newer, quite attractive homes, both condos and single family homes.

The small town of Brisbane has fewer than 5,000 residents. Downtown consists of an eclectic collection of cafes, shops, and the Brisbane library. The Brisbane Community Park is one of several places to have large parties and interact with fellow residents.

Schools: Brisbane or Panorama Elementary, Lipman Middle & Jefferson High.
