

The gourmet kitchen has the features to support both grand formal dinners or simple everyday meals and snacks.

Not far from the kitchen is the guest suite, located on the opposite side of the house from the other bedrooms. Whether you want to provide living space for a maid, a live-in au-pair or extended family, it will be easy to maintain some privacy.

Guests entering your home can be immediately taken into either the formal living or dining rooms.

The sumptuous master bedroom has the features you would expect from this magnificent house. It opens to the backyard patio, swimming pool and tennis court.

Just off the kitchen and breakfast area, the family room provides an ideal place for your family to be together or for casual entertaining. It looks out to the swimming pool.

The upstairs recreation room provides another place for a second group to gather whether a different generation or merely those with different interests.
