

Two spacious penthouse “master bedrooms” each with its own bath-en-suite provide you with the opportunity to have your extended family stay with you while still having enough space for privacy. Easy clean oak floors add to the inviting ambiance.

Each bath has a glass doored shower over tub and an oak vanity with an easy clean synthetic vanity top. The toilet is in a separate room.

The third bedroom is located on the main floor and opens out to a large private balcony through sliding glass doors. Easy clean oak floors and an adjacent bath make this an ideal office space.

The bonus room on the bottom floor is separated from the other areas making it ideal for a game room, a home theater, an exercise room or any desired use which can create noise you want to minimize. Natural light from two ceiling level windows make the space inviting yet private.
