

3 BEDROOMS
3.5 BATHROOMS
1,867 SQ. FT. LIVING SPACE

The floor plan is exceptionally well thought out. The living room is partially open to the dining room. The kitchen and family room are completely open to each other forming the classic "great room" with its own eating area.

Public areas have wood floors, while bedrooms are carpeted. A half bath is near the public areas. Both the master suite and the second bedroom have a bath en-suite, leaving bathroom three primarily for the third bedroom
